

Your Journey to Resilience Starts Here

Where extraordinary experiences create extraordinary leaders

UNSTOPPABLE

— WORLD

Unstoppable World

SOME INVESTMENTS CHANGE EVERYTHING.

By participating or sending your leaders on an Unstoppable Resilience Tour you're not just providing training—you're catalysing a fundamental shift in their capabilities. Today's business environment demands extraordinary leadership, narrative changes, motivation and resilience, and our approach transforms how you navigate challenges and drive organisational as well as personal success.

Measurable Leadership Development

Tours include rigorous training and development from world-recognised institutions and experts. When organisations invest in their team members to join our tours, they gain measurable improvements in leadership capabilities, strategic thinking, and decision-making that directly impact business outcome.

The Power of Real-World Solutions

Traditional leadership training falls short in today's constantly changing world. Real challenges demand resilient leaders. Our unique approach combines breath-taking environments with immersive experiences where practical wisdom creates profound shifts in how you think, lead, and succeed.

The Science Behind Our Approach

People never remember what you say. They always remember how you make them feel.

When a conversation happens in an extraordinary setting, the information is encoded more deeply in memory. We follow the proven 70-20-10 model created by McCall, Eichinger, and Lombardo—combining structured experiences (70%), social learning (20%), and formal training (10%) in a deliberate, integrated approach that maximises learning transfer.

The Power of Group Dynamics

The remarkable nature of our settings creates remarkable results. Like marketing guru Seth Godin's purple cow in a field of brown cows stands out, we have created something truly unique in which leaders learn from, and with one another. As new neural pathways are encoded through experience, new connections are made from shared experiences and diverse perspectives that are the foundations of lasting transformation.

Experience your journey from insight to action supported throughout by our international experts in leadership, success, resilience (social, business and economic), motivation and mental health.

Your 12-Day Investment

Over 12 transformative days, participants engage in rigorous leadership development within settings designed for maximum impact:

- World-class leadership training from renowned global experts
- Strategic skills development with immediate workplace application
- Immersive learning environments that accelerate adaptation
- Real-world problem-solving with innovative communities
- Practical business tools developed through challenging experiences

The Lasting Impact

By investing in yourself or your leaders through our programmes, you or they gain measurable returns:

- Enhanced leadership capabilities that drive team performance
- Strategic thinking skills that improve business outcomes
- Resilience frameworks that maintain effectiveness during change
- Global perspective that opens new opportunities
- Compelling content for CSR reporting and stakeholder engagement

Upcoming Journeys

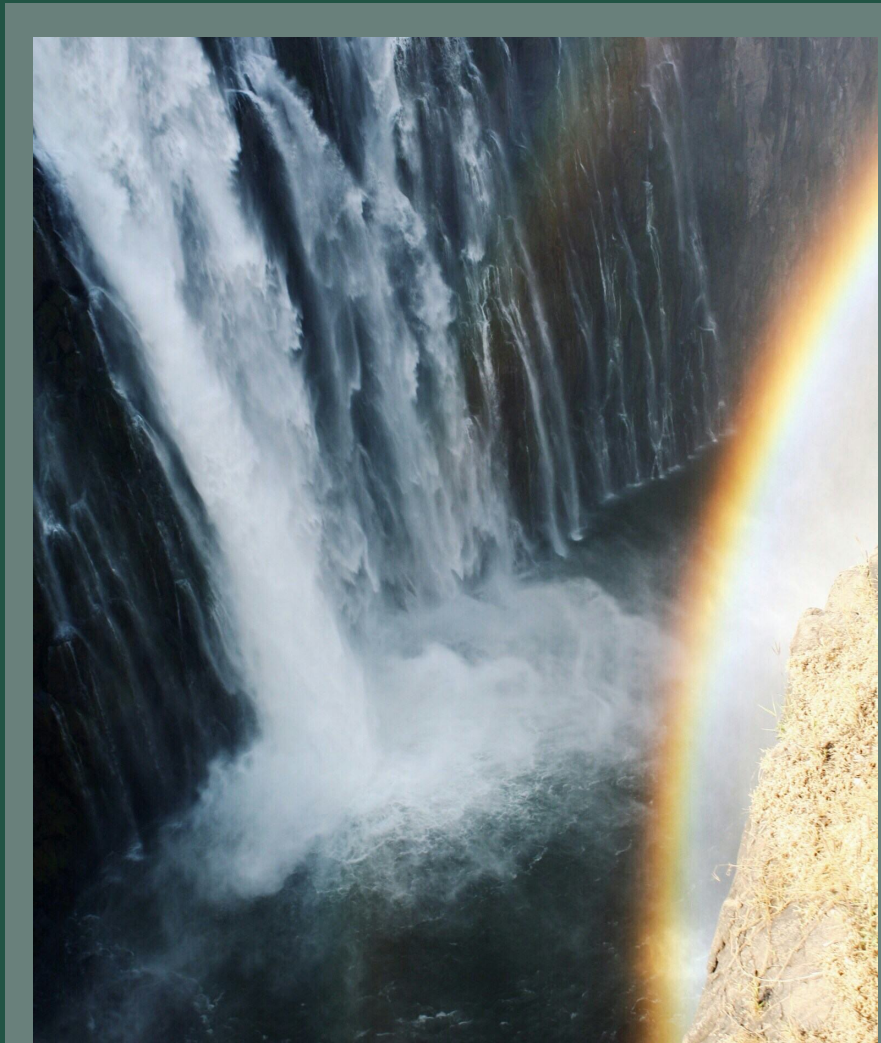

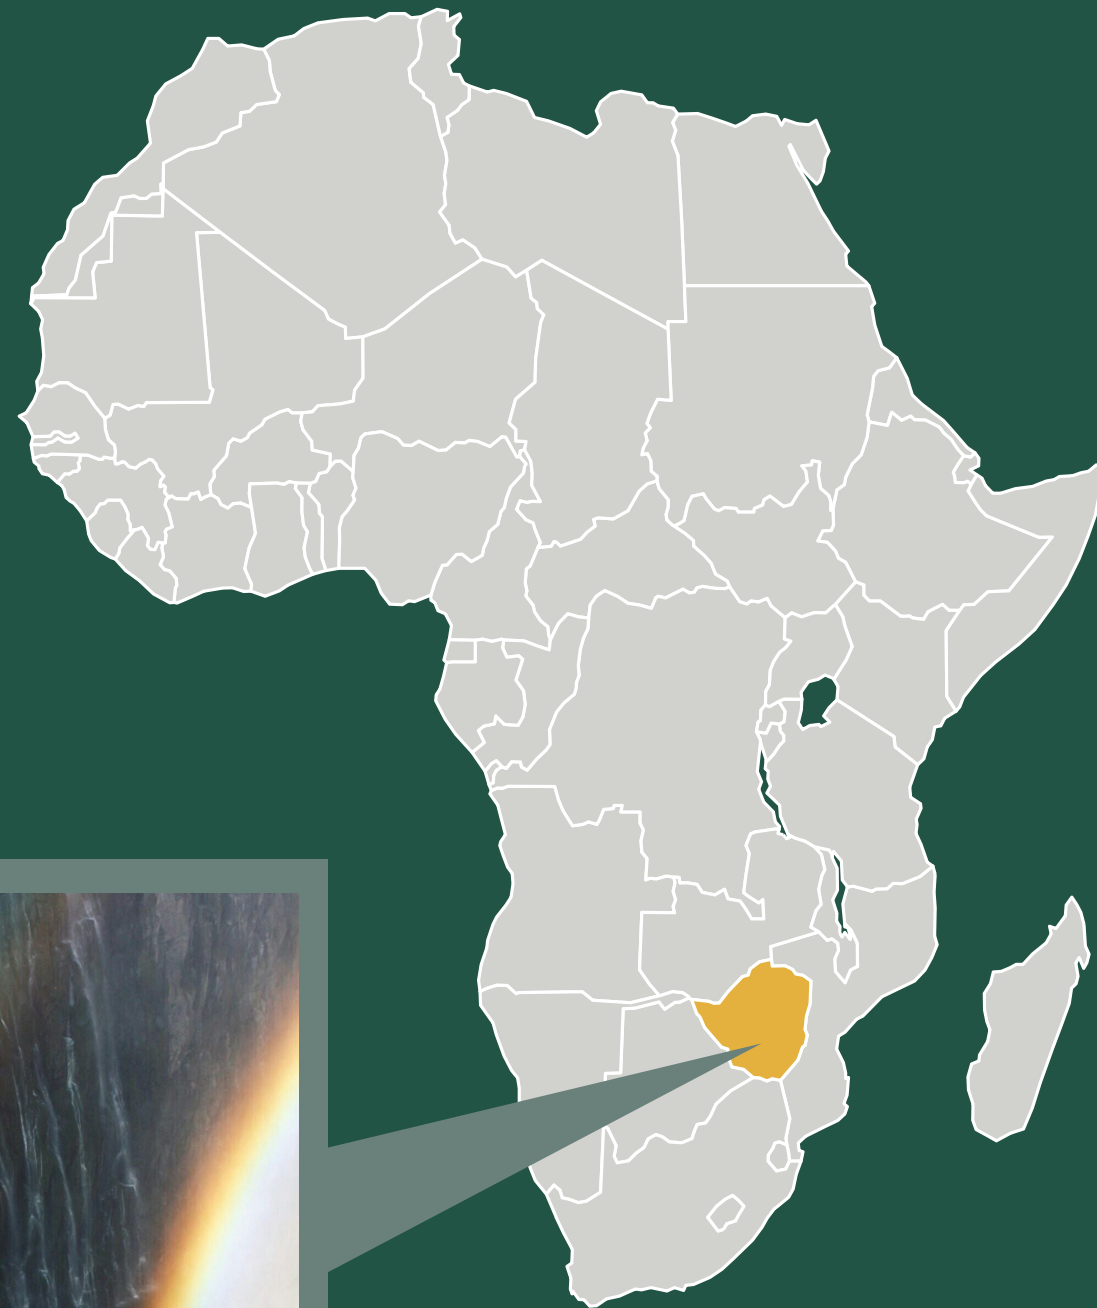

Zimbabwe: Our Flagship Experience

Begin your transformation where ancient wisdom meets modern innovation. Here, amidst the thunder of Victoria Falls and the serenity of private wilderness reserves, you'll meet communities who've turned adversity into opportunity. From rural innovators to urban entrepreneurs, their stories of resilience and reinvention provide powerful lessons for modern leadership.

Your journey includes:

- Sunrise over the Zambezi
- Private wilderness experiences
- Community innovation encounters
- World-class coaching
- Ancient cultural sites

Additional global locations launching soon.

Future Journeys

Cape Town

Urban Innovation & Natural Wonder

Experience the dynamic contrast of a world-class city against the backdrop of extraordinary natural beauty. Learn from entrepreneurs, conservationists, and community leaders who are creating sustainable solutions in this unique urban-natural interface.

Coming Soon

We're developing extraordinary journeys in Australia's Northern Territory and Japan (Hiroshima to Okinawa), where resilience and transformation form powerful narratives for leadership development.

East Africa

Tanzania & Kenya

Immerse yourself in the cradle of humanity where ancient traditions meet modern challenges. Engage with Maasai leaders, conservation pioneers, and social entrepreneurs across the savannahs and highlands of East Africa.

Join the Journey

Visit www.unstoppablenow.world to explore self-funded participation, sponsorship opportunities, and available tour dates.

Immerse in a once-in-a-lifetime experience that will transform your future.
